

# Pure Beauty

## Clean air, fresh salon ....

The BOFA Pure Beauty system has been especially designed for the hair and beauty industry to extract and remove harmful fumes and air borne dust generated in the salon environment.

## Extracts harmful fumes and dust:

The hazards associated with quick-dry nail sprays, nail varnishes and removers, as well as nail extension materials need to be assessed under the COSHH regulations. The main concern is the inhalation of dust or solvent fumes produced when using the products mentioned above.

Many of the current nail desk extractors simply recirculate the solvent laden air within the salon. The multi-layered pre and chemical filters in the Bofa Pure Beauty capture all the contaminants and return clean air into the salon.

## No need to replace existing furniture.

Ideal for the salon environment, the Pure Beauty extraction system will fit easily into any salon, without the need to replace existing nail stations or furniture.

The complete beauty salon fume extraction system.

### PACKAGE INCLUDES:

- Pre filter
- Granulated carbon gas filter
- 50mm stay put extraction arm
- Installation flex
- Table brackets
- Filter blocked indicator
- 20 sec overrun safety feature

Pure Beauty extraction unit with desk

PART NUMBERS			
Model	Voltage	Part No.	VOC Monitoring
Pure Beauty Powder Coated	230V	E2042A0000	A2003
	115V	E2041A0000	

REPLACEMENT FILTERS		
Model	Pre Filter	Gas Filter
Pure Beauty	A1030102	A1030057

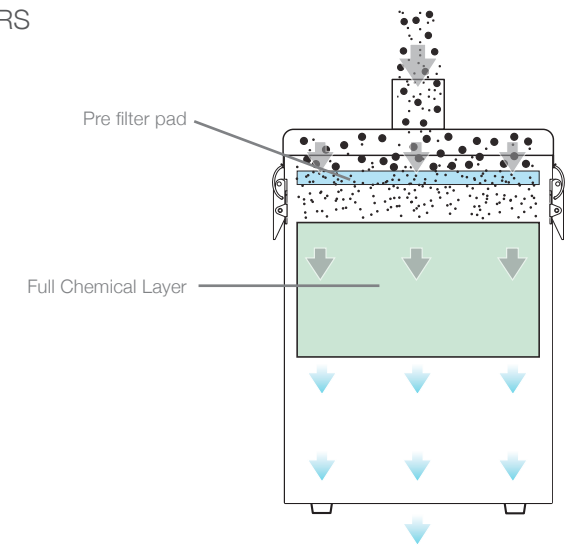

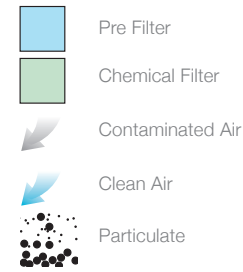

TECHNICAL DATA		
	230V	115V
Dimensions (HxWxD)	380 x 260 x 260 mm	14.9 x 10.2 x 10.2"
Cabinet Construction	Powder coated mild steel	Powder coated mild steel
Airflow / Pressure	90m <sup>3</sup> /hr / 20mbar	53cfm / 20mbar
Electrical Data	230v 1ph 50/60Hz Full load current: 0.9 amps / 60 watts	115v 60/50Hz Full load current: 1.1 amps / 65 watts
Noise Level	< 52dBA*	< 52dBA*
Weight	11kg	24.2lbs

\* At typical operating speed.

PRE FILTER SPECIFICATIONS	
Filter Media	Glass Fibre
Filter Media Construction	Pad
Filter Efficiency	F7 (96% @ 2 microns)

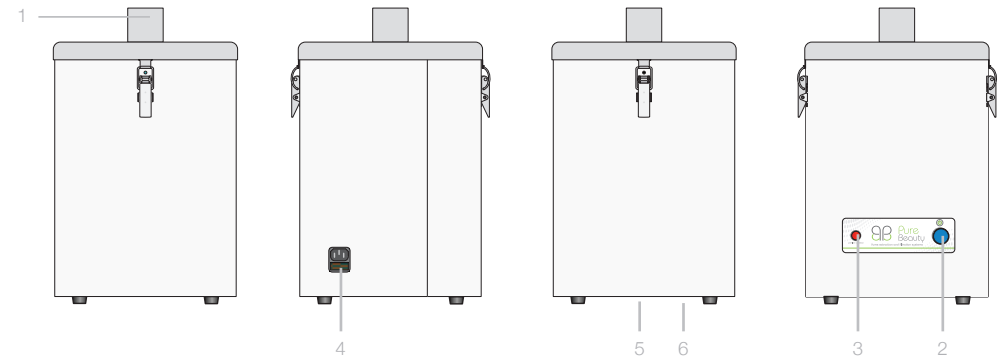

GAS FILTER SPECIFICATIONS	
Filter Housing	Zintec Mild Steel
Treated Activated Carbon	5kgs

## AIRFLOW THROUGH FILTERS

## TECHNICAL SPECIFICATION

- Hose Inlet Connections - 50mm
- On / Off Switch
- Unit/Filter Condition Display
- Power Inlet
- Exhaust Outlet
- Motor Cooling Inlet

Other hose kits and filters are available. All of the above units are fitted with our standard filter combinations. For specific applications please call us for details. Replacement filters should always be ordered using the part number on the filters inside your extractor to ensure the correct filter is ordered. Datasheet correct at time of print.
